MRS. GREEN TRIMBLE PASSES TO GREAT BEYOND

Mrs. Green Trimble died on Feb. 1, 1919, aged 43 years, at her home near Sideview. She is survived by her husband and six children. Her death was caused by pneumonia. She was born and reared in Kentucky, and had been a member of the Christian church for a number of years, and her heart was centered in the Lord's work. The remains were laid to rest in the Mark grave yard. "A precious one from us has gone, a voice we love is still, a place in our home which we never can fill. One week has gone but still we miss her. No eyes can see us weep, but many a silent tear we shed when others are asleep. God in his wisdom has called her home. His love has given and though the body slum-

bers, her soul is safe in Heaven. (Written by her loving daughter, Martha Trimble.)

THE AMERICAN WAR MOTHERS ASSOCIATION

The National American War Mothers Association was organized during the war with Germany for the purpose of promoting the association together for mutual sympathy and helpfulness, the mothers of sons and daughters engaged in the war service of our country, also to assist them in those organizations which aided the United States in the various war and reconstruction activities.

With the close of the war the American War Mothers Association becomes a honorary organization (similar to the Daughters of the

Revolution) whose chief interest will be the preservation of all records concerning the war with Germany.

The Association is incorporated for twenty years, at the expiration of which time the charter is to be extended to the granddaughters of the present war mothers. The membership is limited to mothers whose sons or daughters are or have been engaged in the war service of the Army or Navy of the United States of America during the war against Germany. The meetings of the local chapters are held annually, the dues are twenty five cents a year. All those joining a regularly organized Unit before April 1st, will become Charter members of the National Association of American War Mothers.

Chapters have been organized in Fayette, Bourbon, Clark and many neighboring counties and a large charter membership registered.

In the near future a Chapter will be organized in Montgomery county and all War Mothers who are interested in this great honorary and patriotic organization will have the opportunity to register as charter members.

IT GIVES IMMEDIATE RELIEF ANDES GREAT OIL

Get a Bottle Today If You Suffer With Pain.

If you suffer from any form of rheumatism, such as sciatica, lumbago, inflamed, swollen or stiff joints, pleurisy, sore throat, pains over kidneys or sides, pains in the chest and under shoulder blades, Andes great oil will give quicker and more permanent relief than anything you can use.

When applied according to directions, headache, toothache, neuralgia, pains in back of head and neck will disappear as if by magic.

It cures sprains and strains, reduces the swelling and removes all soreness. Andes oil is made of the finest essentials and conceded by chemists as the greatest pain medicine ever manufactured.

UNUSED MUNITIONS BROUGHT WAR'S END

GERMAN STAFF KNEW OUR PRODUCTION AND GAVE UP, SAYS FRANKLIN.

Cleveland.—The war supplies that have been delivered and must be paid for but never used were what actually brought the war to the sudden end so much earlier than had been expected, according to Lewis B. Franklin, director of the war loan organization for the United States.

LEWIS B. FRANKLIN,
War Loan Director.

"Those are the things for which we are going to pay with the Fifth—and last—Liberty Loan," Mr. Franklin explained at a meeting of Liberty Loan county chairmen in this city.

"That is what I mean when I say that this money you are going to raise—through the things already bought with the credit of it—is paying for the saving of a half a million American lives.

"The speed and bravery of the American 'dough-boy' affected the German on the front line more than it did the men at German general headquarters; but the fact that America had ten tons of mustard gas ready for shipment in 1918, to every ton that Germany had; the fact that we were going to have a tank on the front line for every 75 feet of the line in 1918; the fact that we would have thousands of batteries of guns where we did not have a single one in 1918—those facts had an influence on the German General Staff.

"And, far from that money, those millions and billions of dollars wasted in an unnecessary preparation, I feel that the fact that the money was spent and that that enormous output of munitions was ready, was the controlling factor in the weakening of the German General Staff, and that it caused their message to the Kaiser that they were beaten, and that he must sue for peace. And the way I see it is that this money, instead of being wasted, can be written down as having saved the lives of hundreds of thousands of American men who would have been sacrificed had the war continued another year.

"I do not believe that we are going to be troubled with this loan. I look for at least 20,000,000 subscribers to the next loan.

"We must let the people of the United States know why there is a Fifth Loan, what the money went for, what it did—and that is the most important part of it, what it did. We must tell them that it brought back two or three or four or five hundred thousand safe, live American boys, instead of having them buried in France. And I cannot conceive of the American people failing to respond to that kind of an appeal."

To the Wounded

THIS is our homage when you pass us by:
Not the crude pitying stare you dread,
but this—
Averted eyes, and conquered tears,
and pangs
Of helpless love . . . You do not
know how brave
We also are, not stretching out our
hands,
Maddened with pity, to the stranger
faces
That whitely pass us, needing us so
much!
Oh, boy with deep bright eyes and
crippled foot,
Oh, soldier with the face made old
with war,
We promise you, by every wound you
bear,
A nation's homage and a nation's help.
And all its grateful hearts, your eager
friends!
Sulamith Ish-Kishor, in The New
York Times.

Liberty Bond—Liberty Lost

"For your bond let me trade you this
stock."
Said a scalper to prudent Bill Brook.
"Not today, sir," Bill said—
Then the salesman he led,
To the jail where he now is "in bed."

Keep Well

Do not allow the poisons of undigested food to accumulate in your bowels, where they are absorbed into your system, indigestion, constipation, headache, bad blood, and numerous other troubles are bound to follow. Keep your system clean, as thousands of others do, by taking an occasional dose of the old, reliable, vegetable, family liver medicine.

Theford's

Black-Draught

Mrs. W. F. Pickle, of Rising Fawn, Ga., writes: "We have used Theford's Black-Draught as a family medicine. My mother-in-law could not take calomel as it seemed too strong for her, so she used Black-Draught as a mild laxative and liver regulator. We use it in the family and believe it is the best medicine for the liver made." Try it. Insist on the genuine—Theford's. 25c a package. E-75

BEST WAYS TO CON- TROL HOG LICE

Lice on hogs can be controlled in various ways, but complete eradication is best secured by the use of dipping vats, experiments conducted by the United States Department of Agriculture show.

Medicated hog wallows and rubbing posts, the experiments showed, kept the number of parasites reduced so that they caused little or no damage, but neither of these methods destroyed all the lice. Crude petroleum was used on the rubbing posts and the wallows were medicated with coal-tar creosote dips, pine tar, crude petroleum and bland oils. Crude petroleum and coal-tar creosote dips proved more effective when applied from an ordinary sprinkling can than when used in wallows or on rubbing posts.
